

The Team Inflatable Bag Stop

Innovative Solution to Temporarily Shut Off Flow of an In-Service Piping System

The Team Bag Stop is an ideal solution for piping system repairs without shutdown. Choose a Team inflatable Bag Stop for:

- Pipe that is out of round
- Inside surface condition of pipe that doesn't allow a traditional line stop
- Back up line stop
- Significant weight reduction of equipment compared to a traditional line stop
- Cost savings resulting from smaller and lighter equipment
- Reduced cost due to nozzle size and design

Typical Tee Bag Stop

The right people, technology and experience to keep your pipelines and plants online.
